Installation Instructions

1) After unzipping the **JJ Groove Pack** you downloaded, you will find **two folders**;

"<name of MIDI pack> (JJ Groove Packs)"

AND

"SSD <name of MIDI pack>.lib"

Both folders contain the same **MIDI files**, the **"SSD" folders** are just named differently so they can be accessed in the **SSD 5 groove library**.

2) To play the **MIDI grooves** first load up your **DAW** and **drum sampler**. After that, locate the **JJ MIDI Groove Pack** you downloaded and drag the **MIDI files** into the **audio editing pane**.

3) You can also copy the **JJ MIDI Groove Pack folders** directly to your **drum samplers groove libraries**. The packs are fully compatible with popular samplers such as **GetGood Drums**, **SSD 5**, **EZ Drummer 2**, and **Superior Drummer 3**.

This is the recommended way to use these MIDI packs as it allows you to easily preview the grooves and makes your workflow more efficient.

The section "Sampler Library Integration" (page 3) has instructions on how to copy the grooves to your drum sampler's groove library.

MIDI Mapping

JJ MIDI Groove Packs are mapped in General MIDI (GM). If the grooves sound off on your sampler, MIDI mapping is most likely the reason why.

The groove packs are good to go out of the box with **Toontrack products (EZ Drummer, Superior Drummer)** as they are mapped in **GM**.

Instructions on how to remap **GetGood Drums** and **SSD 5** are found below. **Don't worry; it's very quick and simple since there are readymade presets for it! All you have to do is load them.**

General MIDI Drum Mapping Chart

These are the hits used in JJ MIDI Groove Packs. If the grooves sound off make sure your **drum sampler** is using these mappings.

Kick Hit: C1 (36)

Snare Hit: D1 (38)

Rack Tom 1 Hit: D2 (50)

Rack Tom 2 Hit: G1 (43)

Floor Tom 1 Hit: C2 (48)

Floor Tom 2 Hit: F1 (41)

Hi-Hat Tip Tight: F#1 (42)

Hi-Hat Tip Closed: F#2 (54)

Hi-Hat Open 2: A#1 (46)

Hi-Hat Open 3: A#2 (58)

Hi-Hat Pedal: G#1 (44)

Ride Bell: F2 (53)

Ride Cymbal: D#2 (51)

Main Crash Left Hit: C#2 (49)

Main Crash Right Hit: A2 (57)

China Hit: E2 (52)

Splash Hit: G2 (55)

Sampler Library Integration

GetGood Drums (GGD)

- 1) Navigate to the folder you **installed GGD to**
- 2) Open the "**MIDIFiles**" folder and copy the **JJ MIDI Groove Pack folder ("<name of MIDI pack> (JJ Groove Packs)")** there
- 3) Launch your **DAW** and load **GGD**
- 4) In the **GGD interface** go to "**SETTINGS**" and "**MAPPINGS**". Navigate to where it says "**LOAD PRESET**", click the arrow and select "**GM**". Now **GGD** is mapped in **GM**
- 5) The **JJ MIDI Groove Pack** will appear in **GGD's "GROOVE PLAYER"**

EZ Drummer 2

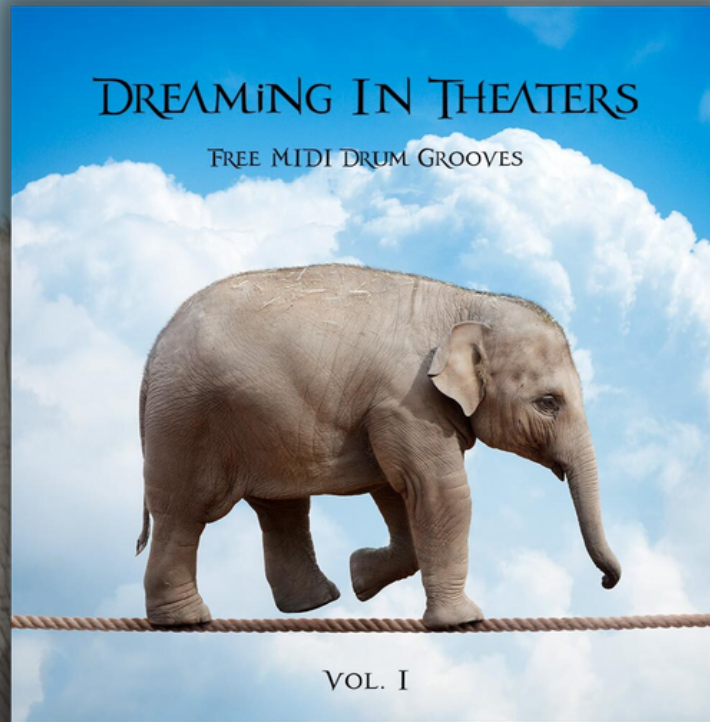

- 1) Launch your **DAW** and load **EZ Drummer 2**
- 2) In the **EZ Drummer interface** go to "**BROWSER**" and click "**Show user MIDI**"
- 3) Click the arrow next to "**User MIDI**" and select "**Open in Explorer**" (or "**Open in Finder**" on Mac).
- 4) Copy the **JJ MIDI Groove Pack folder ("<name of MIDI pack> (JJ Groove Packs)")** to the "**User MIDI**" folder
- 5) Restart **EZ Drummer** and the **JJ MIDI Groove Pack** will appear in the "**User MIDI**" box

Superior Drummer 3

- 1) Launch your **DAW** and load **Superior Drummer 3**
- 2) In the **Superior Drummer 3** interface go to "**GROOVES**"
- 3) Right click the "**User MIDI**" folder (underneath "**User Libraries**") and select "**Open in Explorer**" (or "**Open in Finder**" on Mac).
- 4) Copy the **JJ MIDI Groove Pack** folder ("**<name of MIDI pack> (JJ Groove Packs)**") to the "**User MIDI**" folder
- 5) Restart **Superior Drummer 3** and the **JJ MIDI Groove Pack** will appear in the "**User MIDI**" box

SSD 5

- 1) Locate the **SSD 5 Library installation folder** (it's called "**SSD 5 Library**")
- 2) Copy the "**SSD GM.iom**" file from the "**SSD <name of MIDI pack>.lib**" folder of your **JJ MIDI Groove Pack** to the "**IOMaps**" folder ("**\\SSD5Library\\IOMaps**")
- 3) Go back to the the **SSD 5 Library installation folder** and copy the "**SSD <name of MIDI pack>.lib**" folder from your **JJ MIDI Groove Pack** to the "**Grooves**" folder ("**\\SSD5Library\\Grooves**")
- 4) Launch your **DAW** and load **SSD 5**
- 5) In the **SSD 5** interface click "**Map**" and "**Load Preset**". Load the "**SSD GM.iom**" preset. **SSD 5** is now mapped in **GM**
- 6) You will find the **JJ MIDI Groove Pack** in the "**Grooves**" tab in the **SSD 5** interface

**YOU'RE ALL SET
THANKS!**

I hope you enjoy the pack!
